October 12, 1990

Mr. Randal J. Ralphs
Genwal Coal Company
P.O. Box 1201
Huntington, Utah 84528

Dear Mr. Ralphs:

Re: Conditional Approval, Removal of Generator Pad/ Installation of New Pad and Metal Building, Genwal Coal Company, Crandall Canyon Mine, ACT/015/032, Emery County, Utah

#2

This Division is issuing a conditional approval for the proposals received on October 11 and 12, 1990. These proposals include the removal and installation of a shop building and construction of an oil tank storage area. The work will be limited to the scope of work outlined in the above reference letters.

Genwal must provide final as-built drawings and narrative descriptions of the proposals within 30 days of completion of the construction or November 20, 1990, whichever is sooner. These must be in a format for direct insertion to the existing MRP and fourteen copies must be provided for distribution to other interested agencies.

It is the Division's understanding that you have contacted the U.S. Forest Service and have obtained that agency's concurrence on this project.

Thank you for your time on this matter and please feel free to call if you have any questions regarding this approval.

Sincerely,

Rick P. Summers
Senior Hydrologist
